CUSHION COMFORT™

"A big complaint that I hear from readers is that their underwires dig in under their arms, and it really puts them off wired bras. But the Cushion Comfort™ does exactly what it says on the tin, and the ingenious design stops even the most eager of wires from making it's way into your unsuspecting pit!"

GEORGINA HORNE, BLOGGER

DD-K cups DELIGHTFULL

DESCRIPTION

Designed with the fuller bust in mind, this 4-part cup balcony with new Cushion Comfort follows the contour of the body with a stretch lace top cup that flexibly fits soft and full breast types. A fully lined inner cup offers a great lift, while a deeper, firmer wing mesh provides additional support and is seam free. Specially designed cushioned tabs on the inner underarm minimise pressure points and ensure all day comfort.
